HAVE YOU HEARD ABOUT RADIESSE?

Are your hands giving away your age? Radiesse is a dermal filler indicated for hand rejuvenation.

Aging of the hands can be seen as a change in skin texture and loss of fat and muscle (volume loss).

Radiesse stimulates your natural collagen production to help improve the structure of your skin. It is ideal for those who have hands that have a sunken appearance with visibly apparent bones, tendons and veins. It is a great long-lasting choice that adds volume to the hands, making your hands appear younger.

AUTUMN IS HERE & SO IS IPL SEASON!

Spent a little too much time in the sun this summer? We have a remedy! With the help of IPL Skin Rejuvenation, improve the complexion and texture of your skin, while getting rid of that unwanted sun damage.

IPL (also known as "Intense Pulsed Light") targets pigmentation (brown sun damage) and hemoglobin (small blood vessels and redness/background flush) and converts them to heat. The heat breaks up the pigment and coagulates the small veins and flush in the epidermis.

To kick off the season, get **1 free IPL treatment with the purchase of 3. That's \$425 worth of savings!**

GET TO KNOW

Diane Tripels

CERTIFIED PERMANENT COSMETIC PROFESSIONAL

TELL US ABOUT YOURSELF...

I'm originally from France and moved to Canada 15 years ago. When I'm not at work, you can find me travelling with my family & "glamping" in my Airstream (which I'm also an ambassador for). Fun fact: I was previously a helicopter pilot!

FAVOURITE CLINIC 805 SERVICE

I would have to say Botox & Dermal Filler with the nurse injectors, Kathryn, Shelley and Courtney. They are all extremely talented and gentle. I'm always so pleased with my results.

SERVICES OFFERED...

I'm an Internationally Certified Permanent Cosmetic Professional providing both paramedical and cosmetic procedures, such as; 3D areolas (post-breast cancer reconstruction), scar camouflage, permanent eyeliner, 3D eyebrows, and full lip colour. I am very passionate about my medical tattooing and believe cancer survivors deserve the best results at the completion of their long, tough journey. For more information, check out my website: www.dbpermanentmakeup.com

FACT: 1 IN 8 CANADIAN WOMEN WILL BE DIAGNOSED WITH BREAST CANCER

October is Breast Cancer Awareness month. Breast cancer continues to be the most commonly diagnosed cancer and the second leading cause of cancer-related death among Canadian women. To learn more & get involved, head over to: www.cancer.ca
